ZACHYS IS ON TOP.

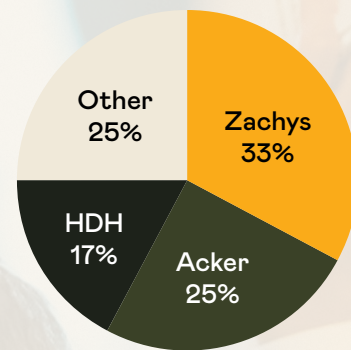

We took our top 100 hottest wines year-to-date, defined as those exceeding their pre-auction estimates by 30%, and compared our prices against our competition.

The findings are clear: **Zachys is realizing the highest prices for the most sought-after wines.** Powered by our strategic move to Delaware and supported by an expert team of specialists, Zachys has set, and continues to set, the market for the most desirable wines. The results tell an interesting story.
